DETAILED ACTION

This office action is in response to Amendment D, in Paper 24, dated 11/12/02.

Information Disclosure Statement

The information disclosure statement filed 9/30/02 and 3/13/02 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. Further, copies of the foreign documents have not been provided by the Applicant as required.

Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

In reference to claim 1, Wakai ('230) teaches a device comprising:

A first layer of silicon nitride formed on a substrate (Fig.9 (1a) and Col. 5, lines: 1-5);

A layer of silicon oxide formed on the silicon nitride layer (Fig.9 (1a) and Col.5, lines: 1-5);

A semiconductor layer formed on the silicon oxide layer having a source, drain and channel (Fig.9 (6);

Another silicon oxide layer and silicon nitride layer on top of the semiconductor layer (Fig.9 (7) and Col.4, lines: 1-10) and a gate (Fig.9(8)).

However, as Applicant argues, Applicant's priority extends back to applications to provide an effective filing date of April 17, 1992. Applicant has submitted certified English translations to support his assertion and has effectively overcome the Wakai reference. Consequently, claims 1-22 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
